

ELEMENTARY ACTIVE LEARNING PROJECTS

THE INTERACT LIBRARY. Interact simulations are written by teachers for teachers, and are easy to use and modify to fit the needs of students and your curriculum. Each Interact unit includes a teacher's guide, purpose and overview, **daily lesson plans**, student materials, **time management guidelines**, and **support materials**. You are guided through each unit so that you **feel confident** the first time and **every time you use one of our products**. This unique library is organized by subject—science, math, language arts, history, geography, and social studies—and comes with all projects in both print and digital forms. The site license grants full reproduction rights and unlimited sharing within the licensed school.

INT500 **74 Active Learning Projects, 1 CD-ROM**
Complete library includes site license **\$2950**

- Improves student comprehension and retention**
- Builds reading, writing, and critical thinking skills**
- Promotes collaboration and 21st-century skills**
- Incorporates a range of multiple intelligences for differentiation**
- Each unit provides up to 2–5 weeks of instruction**
